

Elite DTM -Technical Data & Specification Sheet

Contact Pristine Coatings on 01492 544777

Product Name: Elite DTM (Direct To Metal) stain covering, solvent-based, high opacity coating for interior & exterior applications.

Supplier: Pristine Coatings, Unit 10 Phoenix Workshops, Station Rd, Mochdre, Colwyn Bay, LL28 5EF. Tel 01492 544777

Description: This unique product is a self priming, solvent based interior / exterior coating with additional rust inhibitors for added protection with excellent light reflectance, Elite DTM has excellent stain covering properties, perfect for interiors of industrial units, factories & warehouses. Excellent adhesion, washable & stain resistant.

Where to Use: Structural steel non-ferrous metal, galvanised steel. Enamelled wall panels, aluminium, stainless steel, powder coated substrates, bare or factory finished interior & exterior cladding

Properties:

- Excellent stain covering,
- Ideal for Interior & Exterior Applications
- Fast drying, rapid application
- Excellent productivity
- Self priming finish coat
- Durability
- washable
- Will not flake or peel
- Excellent light reflectance,

Specification

Preparation: Brush down the surface to remove all dust, cobwebs etc, de-grease any heavy contamination, spot prime any bare steel, mask up if product to be applied by spray.

Application:

Elite DTM can be applied by brush, roller or airless spray,

If applied by airless spray use a 0.11 to 0.13 tip, do not dilute. apply one full coat overlapping each pass by 50%. This should be sufficient. However depending on the substrate a further mist coat may be required to complete the project.

Completion: Clean brush, roller & machine with white spirit, clean area ready for re-occupation.

Tech data:

Colour	White as standard but can be supplied in any RAL or BS colour
Solids	40%
Spread rate	8m ² per litre depending on WFT Required.
Dry to touch	2 hour
Recoat after	24 hours
Clean-up	Warm Soapy Water
Flash Point	64°C
WFT	between 100 & 200microns
Containers	15 litres
Weight	23 Kilos
